

EU-HYBNET 2nd Gaps and Needs Event #GN

Virtual meetings (link sent upon registration)

TBC

You are welcome to participate in the 2nd EU-HYBNET Gaps and Needs Event. Support us in defining pan-European practitioners' and other relevant actors' (industry, academia, NGOs) gaps and needs to counter hybrid threats in September 2021!

EU-HYBNET will kick-start its second project cycle in September 2021. Each project cycle starts with a Gaps and Needs Event in order to discuss and define pan-European practitioners' and other relevant actors' (industry, academia, NGOs) gaps and needs to counter hybrid threats.

The forthcoming Gaps and Needs Event is organised by the European Centre of Excellence for Countering Hybrid Threats (Hybrid CoE). The event will take place in two steps, to which all EU-HYBNET consortium and network members are invited to contribute. Please save the following dates in your calendars:

- **7th September 2021**
- **27th to 29th September 2021**

The Gaps and Needs Event is at the core of EU-HYBNET since it will determine the priority gaps and needs on which the project will focus in the forthcoming 17 months by identifying most promising innovations to fill the gaps and needs and recommending innovations uptake and standardisation. The event will also define the project's research and training focus that will benefit EU-HYBNET network members. Thanks to your contributions, the project will deliver results matching your needs!

Substance and practical details of the Gaps and Needs Event will be provided no later than 13th August 2021, including registration link.
