

EU-HYBNET “Defined Innovations against Hybrid Threats” Event

Meeting link sent upon [registration](#)

09.30-11.00 CEST

You are welcome to participate in the Defined Innovations to Hybrid Threats – Event! The event describes the EU-HYBNET’s identified innovations to pan-European gaps and needs to counter hybrid threats!

EU-HYBNET

Organises the

Defined Innovations to
Hybrid Threats - Event

SAVE THE DATE

4th October 2021

9.30-11.00 CEST

This project has received funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement No 883054.

When? 04th of October 2021 at 09.30-11.00 CEST

Registration Link: https://forms.office.com/Pages/ResponsePage.aspx?id=1-m58GaNFkucHGsxHxHligJ0tlscy-qZLpuHyVgZM_NBUQIITSUNaVTaxQlhDOU5XOVJPTlg4NkiSQi4u

EU-HYBNET Event organiser: Rick Meessen (TNO) rick.meessen@tno.nl

EU-HYBNET Coordinator: Päivi Mattila (Laurea) paivi.mattila@laurea.fi

The event is to create common awareness of the innovations identified by the EU-HYBNET project so far to the project's identified pan-European gaps and needs to counter hybrid threats. These research results support looking for new and also other promising innovations to the pan-European practitioners' and other relevant actors' (industry, academia, NGOs) needs in the project and European wide.

The event highlights the process and measures how innovations have been identified and analyzed to the EU-HYBNET project's identified pan-European practitioners' and other relevant actors' (industry, academia, NGOs) gaps and needs to counter hybrid threats. The event also shortly explains an assessment methodology used to analyze innovations. In addition, the event will tell about the innovation prioritization and main findings in different target areas; some promising innovations will be highlighted. In the event, the project will tell about its' future actions in the innovation definition and recommendations for the uptake.

Agenda

Time CEST	Topic	Speakers
09.30-09.40	Welcome and short introduction of EU-HYBNET project	Päivi Mattila , EU-HYBNET coordinator, Laurea
09.40-09.50	Workflow for defining and assessing innovations	Rick Meessen , EU-HYBNET Task3.1 "Definition of Target Areas for Improvements and Innovations" Leader, TNO
09.50-10.05	Proposed Innovations to counter specific dimensions of hybrid threats	Souzanna Sofou EU-HYBNET Task3.2 "Technology and Innovations Watch" and WP3 "Surveys to Technology, Research and Innovations" Leader, Satways
10.05-10.20	Scientific research landscape for the Gaps and Needs identified during the project's first cycle	Rimantas Zylius Sofou EU-HYBNET Task3.3 "Ongoing Research Projects Initiatives Watch" Leader, L3CE
10.20-10.50	Assessment and prioritization of innovations	Okke Lucassen, Rick Meessen , TNO
10.50-11.00	Wrap up and way ahead	Päivi Mattila, Rick Meessen
