EU-HYBNET 3rd Innovation Standardisation Workshop, #ISW2024

22 OCT

Helsinki EU Office, Brussels, Belgium

09.00- 16.00 CET

*The purpose of the **Innovation Standardisation Workshop** is to provide hybrid threats stakeholders and EU-HYBNET consortium partners with an overview of the current status of standardisation efforts in the field and to identify needs and possibilities for the future.*

The EU-HYBNET consortium will hold its 3rd Innovation Standardisation Workshop (#ISW2024) on 22nd October 2024 in Brussels, Belgium.

The workshop will be divided into four thematic sessions, each dedicated to one of the innovations developed during the 3rd cycle of the project in four EU-HYBNET core themes:

1. Future Trends of Hybrid Threats
2. Resilient Civilians, Local Level and National Administration
3. Cyber and Future Technologies
4. Information and Strategic Communication

Who? EU-HYBNET Partners, stakeholders, EAB members, network members, and interested innovation providers, industry, SMEs and NGOS, according to registration check.

When? 22nd of October 2024 at 09.00-16.00 CET

Where? Helsinki EU Office, Rue Guimard 7 B-1040, Brussels (Belgium)

Registration: Open online until **10 October 2024**: https://forms.office.com/e/bD1wAahncx

More information: malgorzata.wolbach@ppbw.pl

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No883054

13:00 – 14:00	Lunch Break	
14:00 – 15:00	**Session 4 – Innovation: STARLIGHT and Innovation testing best practices**	*Moderator:* L3CE

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No883054

	- Presentation of the innovation: STARLIGHT and Innovation testing best practices, **L3CE** (14:00 – 14:05) - Topic, **Nikolaos Gkalelis, EUROPOL Innovation Lab** (14:05 – 14:25) - **STARLIGHT Project, Speaker** (14:25 – 14:45) **tbc** - Discussion (14:45 – 15:00)	
15:00 – 15:30	**Jorge Garzon, French Ministry of Interior, iProcureNet Project** Audience Q&A	*Moderator:* Satways, Dr Souzanna Sofou
15:30 – 16:00	Workshop outcomes & Closing Remarks	EU-HYBNET Coordinator, Prof. Isto Mattila;

Speaker bios

Giannis Skiadaresis

Jorge Garzon

Jorge Garzon is a civil servant attached to the French Ministry of the Interior, responsible of defining procurement strategy and monitoring performance. He is Coordinator of the EU iProcureNet project. He is actively working in implementing the innovation public procurement strategy for the French law enforcement services, facilitating access to VSE-SME to public procurement, reducing procurement costs, and supporting sustainable procurement. He graduated from the Faculty of Law and Economics at the University of Limoges (France) and holds a Master's degree in International Affairs and Finance. He has been a public purchaser for more than 10 years and has extensive experience in the field of purchasing and public administration.

Isto Mattila

Professor Isto Mattila works for international security research in the University of Turku, Finland in the Department of Information Technology. Prof. Mattila has wide working experience covering diverse assignments in different organisations national and international level. He is a Captain Navy, Finnish Border Guard. As from 2008 to 2014 he has worked for the European Commission, DG MARE. He was a second penholder for Maritime Security Strategy and designed new information sharing mechanism (CISE) between maritime authorities in EU, which is now hosted by EMSA. He has held the position of R&D Director at Laurea UAS and he was the project coordinator of the AI-ARC Horizon 2020 project, which aims to build information sharing and anomaly detection to Arctic stakeholders.

Pertti Woitsch

Mr. Pertti Woitsch is an experienced security & defence industry professional with widespread expertise in international sales, marketing and business development with more than 40 years of business experience in a broad range of innovation driven industries. Pertti studied physics and computer science at the University of Helsinki. During his professional career, he has held

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No883054

management, sales, marketing, and business development positions, and been acting as chairman, director, CEO and strategic advisor in several companies in the security and defence industrial domain in Finland and abroad. Pertti has also participated in several European and national security and defence research and development projects as coordinator, partner or advisor. At the moment, he's a partner in the CONNECTOR and DIREKTION projects. Pertti also has had a special interest towards standardization for more than two decades. At the moment, he acts as chairman of CEN-CENELEC Sector Forum on Security and as convenor of Working Group WG 10 (Preparedness) of ISO/TC 292 (Security and Resilience). He currently works as CEO at Woitsch Consulting Ltd., a Helsinki based advisory firm with focus on consulting services to the industry, national public authorities and the research community, including EU-funded research projects.

Rashel Talukder

Tomas Divis

Tomas Divisi is operational case officer in the Department of Counter-Terrorism and Counter-Extremism, having been with the Czech Republic Police since 2013. He teaches at the Department of Psychology at the Faculty of Arts, Charles University in Prague. Tomas Divis is an assistant manager on the DEZINFOPOL project with the Police Academy of the Czech Republic.

Karina Stasiuk-Krajewska,

Rolf Blom

Dr. Blom has since 2011 worked as a project leader and senior researcher in the Cybersecurity unit at RISE. Before that he held an Expert position in Mobile Communications Security at Ericsson Research. He has been active in OMA and 3GPP security standardization and has contributed to security standardization in the IETF. He has also been involved in different EU projects, e.g. SHAMAN on 3G security, SEGRID on smart grid security and 5G-ENSURE on security for 5G. Dr. Blom holds a M.Sc. (1972) in Electrical Engineering from the Royal Institute of Technology in Stockholm and a Ph.D. (1979) in Information Theory from Linköping University.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No883054

Practical Information

The working language of the event is English.

VENUE

The 3rd ISW will take place at the Helsinki EU Office in Brussels, Belgium (Google Maps).

HELSINKI EUOFFICE

Address: Helsinki EU Office, Rue Guimard 7 B-1040, Brussels (Belgium)
